

## **Who we are**

Safetek Emergency Vehicles Ltd. and Profire Emergency Equipment are Canada's leading supplier of fire and emergency vehicles (read: firetrucks) Our products and services help first responders do their jobs safely and efficiently. We are a national company with a well-defined focus on three things, firetrucks, parts for firetrucks and service for firetrucks. We call our commitments in these areas the "Safetek Advantage" and are looking for team members who can drive us forward in our mission of "Serving those who keep our communities safe."

## **Emergency Vehicle Technician**

Our service department is always seeking skilled Emergency Vehicle Technicians to join our Abbotsford and Mississauga teams to help us in meeting our commitment of "*Service Anywhere, Anytime*. Of course, experience with fire trucks is an asset, but not required. If you have experience with heavy trucks, 12 volt electrical, hydraulics, cranes, centrifugal pumps, plumbing, or fabrication and think that working on fire trucks is as cool as we do, we want to hear from you.

## **Responsibilities**

Perform inspection, repair, service and testing of fire-rescue vehicles and equipment

Perform pre-delivery inspections of new vehicles

Install electrical accessories and emergency lighting

Diagnose faults/malfunctions using computerized and other testing equipment to determine extent of malfunction and the type and scope of repair required

Adjust equipment and repair or replace defective parts, components or systems, using hand and power tools

Test repaired equipment for proper performance and to ensure that work meets manufacturers' specifications and company quality standards

Clean, lubricate and perform other routine maintenance on equipment

Advise customers on work performed, general vehicle condition and future repair requirements as identified

Complete and maintain reports and detailed records of work performed to allow our administrative team to respond to our customers.

Fabrication and welding of aluminum components as well as plumbing

Service of centrifugal pump systems on fire apparatus

**Qualifications:**

- Knowledge of: methods, techniques, parts, tools and materials used in the inspection, maintenance and repair of automobiles and/or heavy trucks
- Automotive/truck service experience a plus
- Minimum 1 year of experience in a service role
- Strong verbal and written communication skills, effectively communicating with customers, suppliers, technicians and the service manager. Ensuring procedures are followed, parts are ordered, work is scheduled and accurate charge outs of parts and labour
- Ensuring technical service bulletins are posted and distributed to customers
- Ability to multi-task, work under pressure, be highly organized and meet deadlines
- Demonstrated ability to work independently as well as part of a team to effectively manage multiple priorities, organize work, and meet deadlines
- Willingness to learn new and innovative technologies

**Wage and Benefits:**

We offer a competitive compensation packages on certifications, skills, knowledge and experience as well as training opportunities and apprenticeships. Additionally, we have a great benefits package including an RRSP program.

We will offer relocation costs for a successful candidate from anywhere across Canada.
